

Force Science[®] Training Course

May 8th & 9th, 2014 – 8:00am – 5:00pm

Sponsored by: **Henderson Police Department**

**Training Location: Henderson Police Department North Station
225 East Sunset Road, Henderson NV, 89011
Training Rooms 100 and 102**

**Are you and your agency ready for the firestorm
from a controversial Use of Force?**

Now! Law Enforcement's newest training course prepares you for uncovering the truth when lawsuits, careers and reputations are on the line!

"[Force Science] puts science behind what trainers and field officers have speculated for years. My agency has used your information in training and in court. It saves officer and citizen lives."
– Sgt. James MacGillis, Rangemaster, Milwaukee (WI) PD

Through the groundbreaking work of Dr. Bill Lewinski and his team of researchers and experts on human dynamics, you will learn:

- How to analyze vital elements of controversial uses of force that are often overlooked.
- Skills to help determine whether an officer is being honest when he *swears* his recollection of an incident is true...even though his account conflicts with evidence.
- Techniques for helping officers accurately & thoroughly recall force incident details.
- Why a site visit and/or video review may or may not be advisable before a statement.
- Whether shots to the back *really* reflect what an officer saw when he pulled the trigger.
- How to avoid critical mistakes some investigators make during post-incident interviews.
- The truth about time: How long it *really* takes officers to start—and stop—shooting.
- What ready position is *really* best for reducing lag time...and much more!
