A Three-Day Course for Both the Novice and Experienced Detective

Death and Homicide Investigations

(24 HRS)

This course is intended for those investigators who are newly assigned to homicide duties or detectives and uniform personnel who are desirous of entering the field of death investigations. The goal of this training program is to acquaint the novice investigator with all facets of death investigation, including the esoteric terminology that is unique to homicide cases. Attendees will become familiar with the indicators of suspicious death and learn just how equivocal the death scene can be. Instruction is provided through the use of a PowerPoint presentation that makes liberal use of authentic crime scene photographs. This insures that the topics discussed are portrayed as realistically as possible.

Students should be forewarned that the content of this course contains numerous death scene photographs that are highly graphic and intense. Due to the sensitive nature of this material, attendance is restricted to sworn law enforcement personnel, or those directly involved in the criminal justice system.

Instructor

Tony Monheim retired from the Miami-Dade Police Department in 2004 after a distinguished 30-year career. He was assigned to the Homicide Bureau during the final 12 years of his tenure.
