Nevada POST Management Course Program

Self-Paced Modules and Classroom Instruction

POST Training Division Chief Chris Carter/POST Staff/Subject Matter Experts

The Nevada POST Management Course Program provides a module-based instructional design for completing the management course program. There are five (5) self-paced independent study modules that serve as the prerequisites to attending the classroom portion of the management course program (Module 6). Upon satisfactory completion of the five prerequisite modules, management course program participants will complete module 6 (a 40-hour classroom block of instruction). Upon satisfactory completion of module 6, management course participants will submit a future-oriented five-year strategic plan for their organization (Module 7). This self-paced independent project focuses on how the strategic plan can be presented to the community and interested citizens. This final strategic plan assignment will be submitted to Nevada POST for evaluation as part of the final management course program process.
